Heart International

Established: 2005 Frequency: Bi-annual
Current edition: Volume 17 Issue 1, 2023

Aims and scope

- *Heart International* enables time-pressured physicians to stay abreast of major advances and opinion in cardiovascular disease.
- *Heart International* comprises balanced and comprehensive articles written by leading authorities, addressing the most important and salient developments in the field of cardiovascular disease.
- *Heart International* endeavours to support physicians, clinicians and related healthcare professionals in continuously developing their knowledge, effectiveness and productivity. The editorial policy has been designed to encourage discussion among this peer group.
- Comprehensive bibliographies for each article mean that *Heart International* is an informative and valuable reference tool for use throughout the year.
- All articles are subject to peer review, and must adhere to the ICMJE, GPP 2022 and COPE guidelines.

Structure and format

- *Heart International* is a peer-reviewed, free-to-access, bi-annual journal comprising review articles, original research, case reports, editorials and practice pearls.
- The structure of each edition of the publication comprises section categories determined by the Editor. The degree of coverage assigned to each category is the decision of the Editor, and in part reflects the views of the Editorial Board.
- All articles disclose any author financial and non-financial relationships and activities, along with any funding, financial support and medical writing assistance.
- Each edition of *Heart International* is published in full online at www.touchCARDIO.com.

Editorial expertise

Heart International is supported by various levels of expertise:

- Guidance from an Editorial Board consisting of leading authorities across all areas of cardiovascular disease.
- Invited contributors who are recognised authorities from their respective fields.
- Peer review: conducted by experts appointed for their experience and knowledge of a specific topic.
- An experienced team of Editors and Technical Editors.

Peer review

- On submission, all articles are assessed by the Editor to determine their suitability for inclusion and appropriateness for peer review.
- The Editor identifies appropriate reviewers, who are selected on the basis of their specialist knowledge in the relevant area, following consultation with a member of the Editorial Board where necessary.
- We aim to have the final peer-review decision within 4 weeks.
- Following review, papers are either accepted without modification, returned to the author(s) to incorporate required changes or not accepted for publication.
- The Editor reserves the right to accept or reject any proposed amendments on the advice of the Editorial Board and reviewers.

Submissions and instructions for authors

- The Editor commissions articles with guidance from the Editorial Board, and unsolicited articles are welcomed.
- The Editor is always keen to hear from authors wishing to discuss potential submissions, and will give due consideration to any proposals. Please contact the Editor for further details: editorialmanager@touchmedicalmedia.com
- Instructions for authors are available from the website www.touchCARDIO.com

Distribution and readership

Heart International is distributed globally, on a bi-annual basis, through controlled circulation to healthcare and pharmaceutical professionals in the field.

Abstracting and indexing

Heart International is abstracted, indexed and listed in PubMed (PMC), EBSCO, Emerging Sources Citation Index (ESCI), Scopus, Google Scholar, Genamics Journal Seek and IndexCopernicus.

Copyright

Authors transfer the copyright of the article to Touch Medical Media, who publish the article as free-to-access to registered users.

Free-to-access

All articles are free-to-access, which allows anyone in the cardiology field to download published articles free of charge.

Online resources

www.touchmedicalmedia.com provides clinicians and other industry professionals with free resources spanning nine therapy areas including cardiology, endocrinology, haematology, immunology, infectious diseases, neurology, oncology, ophthalmology and respiratory and pulmonary diseases.

Society partners

touchCARDIO.com has developed very valuable society partnerships with the most respected not-for-profit medical societies both in Europe and the USA.

These partnerships are key as touchCARDIO.com helps to promote awareness of these medical societies while also providing free-to-access, peer-reviewed articles and multimedia content to the society members, which ensures that the industry is kept up-to-date with the latest cutting-edge content and opinion from world-renowned doctors.

About Touch Medical Media

Touch Medical Media publishes a rich and diverse portfolio of fully referenced, free-to-access journals across the clinical and pharmaceutical arenas. Touch Medical Media aims to assist in the education and practice of healthcare and pharmaceutical professionals. 

Foreword

1 Foreword

Magdi El-Omar

Manchester Heart Centre and Honorary Senior Lecturer, University of Manchester, Manchester, UK

Editorial

Cardiovascular Disease

2 Mavacamten, an Alternative to Septal Reduction Therapy for Patients with Hypertrophic Cardiomyopathy

Milind Y Desai and Adel Hajj Ali

Hypertrophic Cardiomyopathy Center, Heart Vascular Thoracic Institute, Cleveland Clinic, Cleveland, OH, USA

Practice Pearl

Heart Failure

5 Integrating Palliative Care into the Management of Heart Failure with Reduced Ejection Fraction: A Practice Pearl

Abigail Latimer,¹ Christopher E Knoepke² and Roger Winters³

1. University of Kentucky College of Nursing, Lexington, KY, USA; 2. Division of Cardiology, University of Colorado Anschutz Medical Campus School of Medicine, Aurora, CO, USA; 3. Department of Medicine, University of Colorado Anschutz Medical Campus School of Medicine, Aurora, CO, USA

Reviews

Cardiovascular Disease

8 Low-flow, Low-gradient Severe Aortic Stenosis: A Review

Nishant Sharma,¹ Ayaaz K Sachedina¹ and Sachin Kumar²

1. Libin Cardiovascular Institute, Foothills Medical Centre, University of Calgary, Calgary, Canada; 2. Memorial Hermann-Texas Medical Center, University of Texas Health Science Center, Houston, TX, USA

13 Balloon Aortic Valvuloplasty in the Transcatheter Aortic Valve Implantation Era

Gustavo Arturo Samaja

Interventional Cardiology Department, Policlinico Bancario Buenos Aires, Buenos Aires, Argentina

19 Transcatheter Mitral Valve Replacement in Patients with Mitral Annular Calcification: A Review

Ankit Agrawal,¹ Michael J Reardon² and Sachin S Goel²

1. Department of Cardiovascular Medicine, Heart Vascular and Thoracic Institute, Cleveland Clinic, Cleveland, OH, USA; 2. Houston Methodist DeBakey Heart and Vascular Institute, Houston, TX, USA

Contents

27 **Patisiran for the Treatment of Transthyretin-mediated Amyloidosis with Cardiomyopathy**

Adam Ioannou, Marianna Fontana and Julian D Gillmore

National Amyloidosis Centre, University College London, Royal Free Campus, London, UK

Heart Failure

36 **Measurement of Blood Volume in Patients with Heart Failure: Clinical Relevance, Surrogates, Historical Background and Contemporary Methodology**

Wayne L Miller

Department of Cardiovascular Medicine, Mayo Clinic, Rochester, MN, USA

Interventional Cardiology
